Job Title: **Industrial Designer**
Location: San Antonio, TX

Summary: The main function of an architectural and industrial designer is to develop and design models and drawings for residential or commercial sites in the furniture business as needed for the evaluation of potential projects.

Job Responsibilities:

- Prepare sketches of ideas, models, detailed drawings, illustrations using computer-aided design.
- Modify and refine designs, using working models, to conform with project architectural specifications.
- Confer with engineering, operations, business development departments, or with customers and manufactures to establish and evaluate design concepts.
- Will be responsible for the creation of new drawings and the update of existing drawings based on operations, engineering, or other qualified redlines between San Antonio and Mexico's facilities.
- Strictly adhere to establish drafting and document control processes while creating and maintaining drawings in Metrical and American drawing systems for production or manufacture purposes.

Skills:

- Prior drafting experience within the Furniture and Architectural / Interior Design Industry.
 - Strong attention to detail, organizational, and time management skills
- Knowledgeable understanding of industry drawing types (One. lines, PDF, P &IDs, Plot Plans, etc.).
 - Strong understanding of AutoCAD, Sketch Up, 3D Max, and/or 3D model tools.
 - Excellent verbal, written, and communication skills.
 - Strong planning and coordination skills.
 - Sound decision-making and judgment skills.
 - Proven customer service skills.
- Demonstrated ability to work on multiple projects and deal effectively with employees and management.
- Knowledge of how to execute a site walk down for design purposes.

Education / Experience:

- Education, Bachelor's degree or higher on Architecture, Industrial Design or Interior Design
 - Bilingual (written and spoken English and Spanish)
- Experience, 5-7 years in drafting, designing and working in the industry with American and Metrical systems.
